THE BEST CONTRACT EVER OFFERED.

JAS. MUNSELL, JR., Manager,

415 Montgomery St., San Francisco.

The Mutual Benefit Life Insurance Co. of Newark, N. J.

In a mutual life insurance company, every dollar saved in expenses is a dollar added to dividends, and a dollar saved in the actual cost of insurance. By reference to the following pages it will be seen that The Mutual Benefit is conspicuous for its economical management and for the magnitude of its dividends. The past record of the Company, taken together with the unequalled liberality of its policy contract and its unsurpassed reputation for fair dealing with its members, prove that the Mutual Benefit furnishes the best insurance at the lowest cost price. The policies of The Mutual Benefit are liberal in every regard; there is no limit of travel, residence or occupation, after two years. After the same period the policy is absolutely incontestable, except for non-payment of premium. It, in fact, does precisely what it claims to do—insures a man's life without quibble or chance for it. Of equal, if not still greater importance is the question of surrender value, or how a man will be treated by a company when he surrenders his policy or ceases payment on it. The Mutual Benefit gives to such a man the full value of his policy computed by the highest standard, either by extending the full amount of the policy for such time as the value will pay for, or to the purchase of a paid-up policy. It is the only company which does this.

The Mutual Benefit Life Insurance Company is also extremely liberal in the payment of cash values to those who desire to discontinue their insurance, and loans in cash upon its policies up to 50 per cent of their value where valid assignments of the policies can be made as collateral security. In economy of management, in largeness of dividends, in the liberality of policy, in absolute non-forfeiture and in fair dealing with members, it is excelled by no company, and furnishes all that can be furnished by any Life Insurance Company.

The Most Liberal Advantages Secured by Contract in Policy.

All kinds of Approved Policies issued on the Life, Endowment, Accelerative Endowment, Modified Endowment, and Optional Endowment Plans, on lives between the ages of 14 and 70 years, for any amount from \$500 to \$25,000. Also Annuities, Present and Deferred. Claims paid immediately on completion and approval of proofs. No entrance fee. No fee for Medical Examination.

For Estimates, Specimen Tables, etc., send your name, address, age, kind of policy and amount desired, and a statement will be mailed, showing the cost and advantages of the same.

See Specimen Policy and Premium Rates on following pages.

SPECIAL AND PECULIAR ADVANTAGES OF A MUTUAL BENEFIT POLICY

Which are Not Combined in the Policies of any Other Company.

Large Dividends which are declared and paid **ANNUALLY** at the end of the first and each succeeding year, so that there are no withheld Dividends to be forfeited in case of death or lapse of the Policy.

Equitable Surrender Values, which are indorsed on the Policy, so that the Insured can stop paying Premiums without any loss by forfeitures.

The Insured may stop Premium payments, and take his choice of Extended Insurance in the full amount of the Policy for as long a period as the value of the Policy will pay for **at low term rates**, or of a Paid-up Policy for a reduced amount payable **whenever** death occurs.

The Insured may borrow money (from the Company) on the Policy as per statement indorsed thereon, and thus prevent the lapse of the Policy if he happens to be short of funds, or he may secure a **cash loan** to meet any sudden emergency.

If the Insured forgets to pay a premium on the day it is due, his insurance is continued in force by the Company **without action on his part**. If he is well, he has ample time to pay up his arrears; while if he is sick, he is protected by his Extended Insurance.

Example of Lapsed Policies Paid in Full.

POLICY No. 109,784, on the life of Mr. Thomas Bennett, of San Francisco, Cal., was issued in 1882, for \$5,000, only 10 premiums being paid.

Mr. Bennett died in March, 1894, nearly two years after the lapse of the Policy, which, however, was promptly paid in full—\$5,000—by the Company.

This Rule Applies to all Policies, Giving, at Age 35, on the Annual Life Plan,

OVER	4	YEARS' INSURANCE FOR	2	YEARS' PREMIUMS;
OVER	10	YEARS' INSURANCE FOR	5	YEARS' PREMIUMS;
OVER	20	YEARS' INSURANCE FOR	10	YEARS' PREMIUMS.

Or Paid-up Policy is issued if preferred.

On other Plans the Value and Extension are very much greater.

47 LAPSED POLICIES, insuring \$123,620, were PAID IN FULL by the Company in 1893, under its NON-FORFEITURE and EXTENSION SYSTEM.

Why run the risk of forfeiture? or why trust to the uncertainties of the Assessment plan, when you can get **ABSOLUTELY NON-FORFEITABLE INSURANCE** at the **LOWEST NET COST** in **The Mutual Benefit Life Insurance Company of Newark, New Jersey.**

To such as desire insurance with the least possible Cash Outlay the Company offers the privilege of the **30 PER CENT PREMIUM LOAN PLAN.**

The Mutual Benefit Life Insurance Company is particularly noted for four things of the very greatest importance to Insurers.

1. It has been, and is the most economically managed Company.
2. It has paid, and does pay the largest average dividends.
3. It has furnished, and still does furnish the cheapest insurance.
4. It has held its membership better than any other Company.

\$260.00

in consideration of the statements and agreements in the application for this Policy, which are hereby made a part of this contract, and of the sum of Two Hundred and Sixty dollars, to it in hand paid by John Jones and of the — Annual Premium of Two Hundred and Sixty dollars, to be paid at or before twelve o'clock, M. on the First day of January in every year during the continuance of this Policy, **Does Insure** the life of John Jones of Newark in the County of Essex, State of New Jersey in the amount of Ten Thousand dollars, for the term of Life, payable to John Jones, his executors, administrators or assigns, at its office in the City of Newark, New Jersey, upon due and satisfactory proof of interest and of the death of the said Insured, deducting therefrom all indebtedness of the party to the Company, together with the balance, if any, of the then current year's Premium.

LIFE POLICY—AGE 35, \$10,000, PREMIUM \$260.00.

The Mutual Benefit Life Insurance Co. of Newark, N. J.

NON-FORFEITURE PROVISIONS.

WHEN AFTER TWO FULL ANNUAL PREMIUMS shall have been paid on this policy it shall cease or become void solely by the non-payment of any Premium when due, its entire net reserve, by the American Experience Mortality and interest at four per cent yearly, less any indebtedness to the Company on this Policy, shall be applied by the Company as a Single Premium at the Company's rates published and in force at this date, either, **first**, to the purchase of non-participating term insurance for the full amount insured by this policy, or, **second**, upon the written application by the owner of this Policy and the surrender thereof to the Company at Newark within three months from such non-payment of Premium, to the purchase of a non-participating Paid-up Policy, payable at the time this Policy would be payable if continued in force. Both kinds of insurance aforesaid will be subject to the same conditions, except as to payment of Premiums, as those of this Policy. No part, however, of such term insurance shall be due or payable unless satisfactory proofs of death be furnished to the Company within one year after death; and if death shall occur within three years after such non-payment of premium, and during such term of insurance, there shall be deducted from the amount payable the sum of all the Premiums that would have become due on this Policy if it had continued in force.

THE FOLLOWING TABLE

shows the amount that the Company agrees to loan (being one-half of the reserve) upon a satisfactory assignment of the Policy as collateral security; also the additional time for which the insurance will be continued in full force after lapse by non-payment of premium; or the value of the Policy in Paid-up Insurance upon surrender within three months from date of lapse.

The figures given are based upon the assumption that the premiums (less current dividends) have been fully paid in cash. If there be any indebtedness upon the Policy, the values as stated in the table would have to be reduced proportionally upon the principles stated in the Policy. The indebtedness, if any, may be paid off in cash, in which case the figures in the table will apply.

The Mutual Benefit Life Insurance Co. of Newark, N. J.

NON-FORFEITURE PROVISIONS.

WHEN AFTER TWO FULL ANNUAL PREMIUMS shall have been paid on this Policy it shall cease to become void solely by the non-payment of any Premium when due, the entire net reserve value of the Policy and Dividend Additions, by the American Experience Mortality and Interest at four per cent yearly, less any indebtedness to the Company on this Policy, shall be applied by the Company as a Single Premium at the Company's rates published and in force at this date, either, first, to the purchase of non-participating term insurance for the full amount insured by this Policy, or, second, upon the written application by the owner of this Policy and the surrender thereof to the Company at Newark within three months from such non-payment of Premium, to the purchase of a non-participating Paid-up Policy payable at the time this Policy would be payable if continued in force. Both kinds of insurance aforesaid will be subject to the same conditions, except as to payment of Premiums, as those of this Policy. No part, however, of such term insurance shall be due or payable unless satisfactory proofs of death be furnished to the Company within one year after death; and if death shall occur within three years after such non-payment of Premium, and during such term of insurance there shall be deducted from the amount payable the sum of all the Premiums that would have become due on this Policy if it had continued in force. If the reserve be more than enough to purchase temporary insurance aforesaid to the end of the endowment term, the excess shall be applied to the purchase of pure endowment insurance, payable at the end of the term if the Insured be then living.

After two full years' Premiums shall have been paid, the Company will, on surrender of this Policy fully receipted while in force or within three months from time of lapse, allow as a Cash Surrender Value for the same a sum not less than the full reserve value of the Policy, exclusive of Dividend Additions, computed by the above-named standard, deducting therefrom any indebtedness to the Company on this Policy; AND, at the end of the TENTH policy year, or at the end of any succeeding FIVE year period, if the Policy be then in force, and if it be surrendered fully receipted within thirty days from such times the Company will increase the Guaranteed Cash Surrender Value by the ENTIRE reserve value of all existing Dividend Additions.

It should be borne in mind that the Mutual Benefit's policies are all STRICTLY NON-FORFEITABLE, both as to the policies themselves, and as to dividends, which, in the Mutual Benefit, are always declared ANNUALLY so long as the policy continues in force.

Long deferred dividends conduce to extravagant management, and impose great loss on the average membership.

Deferred Dividends are a great help to companies which cannot pay good Merage dividends, and seek to conceal the fact by paying no dividends for many years and CONFISCATING the dividends of all who drop out of the company in the meantime. See the following page.

DON'T!

If any Company asks you to agree to forego dividends for many years and to forfeit all right to them in case of death or lapse — **DON'T!**

If any Company asks you to take a policy which appears to offer a big investment if you live, and to charge you nothing for your insurance in the meantime—**DON'T!** You may rely upon it that the Company don't intend to lose money on its contracts, and if the policy seems to be worth more than its cost, it is only because you don't understand it as well as the Company does.

DON'T attach too much importance to ESTIMATES! It is easy to make big estimates when they cannot be checked off by actual results for twenty years to come.

In case of death or lapse within 20 years, the Mutual Benefit Policy is far more profitable. The Mutual Life Policy may be worth more if it is in force at the end of the 20 years; but then again it may not. The advantages of the Mutual Benefit Policy are immediate and certain; those of the Mutual Life Policy are remote and uncertain. With the Mutual Life Policy the Insured will know nothing about his dividends till the 20 years have passed. The Mutual Benefit Policy is a legitimate investment. The Mutual Life Policy is a speculation, which bristles with opportunities for loss to the Insured. It provides neither for loans to prevent lapses, nor for extended insurance in case of lapse.

OR LONG "TERM DISTRIBUTION."

Annual Distribution Shows Decidedly the Best Results.

RELATIVE STANDING SINCE ORGANIZATION.

The following table, compiled by the BOSTON STANDARD, shows the results produced by the **Mutual Benefit Life Ins. Co. of New Jersey**, the leading "**ANNUAL DISTRIBUTION**" Company, on one hand and the **New York Life** and the **Equitable Life**, TWO "**ORIGINAL TONTINE**" Companies, on the other hand, since organization :

COMPANIES.	Date of Organization	Premiums Received since Organization.	Payments to Policyholders since Organization.	Gross Assets. Dec. 31, 1892.	Payments to Policyholders since Organization and present Assets.	Interest Saved Or Excess of Payments to Policyholders and Present Assets over Prem's Received.
Mutual Benefit, N. J.	1845	153,935,269	131,226,227	53,328,957	184,555,184	30,619,915

The above table shows that, from \$174,000,000 less premiums than the New York Life the **MUTUAL BENEFIT** has saved **\$26,000,000** more of its interest receipts than the New York Life ; that from \$209,000,000 less premiums than the Equitable, the **MUTUAL BENEFIT** has saved **\$10,000,000** more of its interest receipts than the Equitable ; that from \$538,000,000 less premiums the **MUTUAL BENEFIT** has saved over seven times as much of its interest receipts above expenses for policyholders as the New York Life and Equitable combined, the excess of payments to members plus assets, over premiums received; and that **\$134,003,669** could have been saved by the two Companies since organization under management as favorable as the **MUTUAL BENEFIT'S** management. The Insurance Reports show that while the **MUTUAL BENEFIT** saved **\$1,279,743** of its interest receipts above all expenses in 1893, the **total expenses** of the New York Life and Equitable exceeded their combined interest receipts by over three million dollars in 1893.

COLLEGE OF NOTRE DAME

—OF—

SAN FRANCISCO, CAL.

A Young Ladies' Boarding and Select Day School

COMPRISING

Collegiate and Elementary Departments.

Conducted by the SISTERS OF NOTRE DAME.

Chartered 1876.

This institution, situated on Dolores, between Sixteenth and Seventeenth streets, and nearly opposite the historic "Old Mission Church," is remarkable for the beauty and healthfulness of its location.

Besides being easy of access by the street cars the College sends out daily two commodious private coaches for the accommodation of those pupils who prefer this mode of travel as being more secure than that attainable by the public conveyances.

The playgrounds are handsomely laid out and afford ample space for healthful exercise and amusement. The dormitories, class-rooms, study hall, etc., are sunny and well ventilated. The course of instruction is similar to that pursued everywhere by the Sisters of Notre Dame de Namur, whose natural though very successful methods of imparting an education, at the same time solid and refined, are well known both in Europe and America.
